Purpose:

This is a research based course that reviews research in the area of stress and coping from a social psychological perspective. We will critically examine existing theory, methods, and findings on stress and coping and their relationship to physical and mental health and quality of life. During the course, we will compare the impact of various classes of stressors (e.g., major life events, hassles, traumas), consider competing conceptualizations of coping (e.g., as response, as style, as adaptive or maladaptive), and review the role of both personality and social factors in outcomes. We will examine work stress, burnout, work-family conflict and the role of social support and coping in relation to stressors in all of these spheres. The role of gender differences will be incorporated into most of the topics.

Course Instructor:

Esther Greenglass Ph.D.
Office: 233 BSB
York University, Department of Psychology
4700 Keele Street, Toronto, Ontario, M3J 1P3 CANADA
Phone (Direct Line): (416) 736 2100, ext. 66282

Departmental Fax: (416) 736-5814
Student Background:
This course is available to master’s and doctoral students in psychology, nursing, health policy and management, and kinesiology and health science.

Course Format
Each class will have required readings that will form the basis of the class discussion. Students are expected to read the materials before the class. The course instructor will lead the discussions. Time will be allocated to allow students to lead the discussions in later classes.

Course Text / Readings
Readings for the course include selected chapters from the following book:

In addition, selected journal articles and book chapters are assigned each week and can be found in the course outline below.

Evaluation
1. Seminar discussion leader   25%
2. Critical analysis of a journal article   15%
3. Major Paper      50%
4. Participation   10%

Requirements
*1. Seminar discussion leader. Each student will be asked to choose a topic (different from the major paper), make a short presentation to the class, and lead a discussion on the topic. Readings can be assigned the week before. Evaluation will be based on clarity of the presentation and responses to questions.

*2. Critical analysis. Students are asked to choose a journal article and critically analyze the article in 3 pages + references. This review is due on November 4, 2014

*3. Major Paper. This is a research paper that should go into detail on a topic related to the course, excluding the topic of the critical analysis. The paper itself should not exceed 12 typewritten pages (including references), and should be well integrated, well researched, and referenced. References should be mainly journal articles consisting of empirical studies.
Theoretical material should also be included in the paper. Review articles should be avoided. Evaluation will be based on ability to integrate and concisely present material, critically evaluate the material presented, and suggestions for future research. APA style should be used throughout. [http://owl.english.purdue.edu/owl/resource/560/01/](http://owl.english.purdue.edu/owl/resource/560/01/)

The paper is due on **November 25, 2014**

**4. Participation.** Evaluation is based on student involvement in class discussion.

*All topics should be within the subject matter of this course*

**Expanded Course Outline:**

**Introduction**

**September 9 2014** Introductions. Course format, student evaluation and goals for the course. Social psychological basis of the study of stress and coping. Methodological and theoretical approaches to the study of stress and coping. Relationship between health psychology and stress and coping. The importance of conducting rigorous research in the area of stress and coping.

**Readings:**

Taylor, Chapter 1

**September 16** Definitions of stress and pathways to disease. Understanding stress and coping from a social psychological perspective

**Readings:**

Taylor, Chapter 6

**September 23** The stress process, buffers of stress, moderators of the stress experience

**Readings:**

Taylor, Chapter 7

**September 30** Coping- Theoretical and empirical considerations

**Readings:**

October 7  Stress and Social Support in the Elderly

Readings

October 14  Job stress and work-family conflict

Readings:

October 21  Job burnout and implications for health

**October 28**  Stress and positive psychology: The role of mood and positive affect

**Readings:**

**November 4**  Stressful effects of the economic recession

**Reading:**

**November 11**  Student Presentations
November 18  Student Presentations

November 25  Student Presentations and Course summary

The End
